

EAAP Scholarship winners 2022

EAAP every year offers up to 20 scholarships to young scientists to support their participation in the annual meeting. Young scientists are selected for the quality of the research paper they submit for the meeting.

The 2022 winners will receive the free registration for the 2022 meeting in Porto (Portugal) from 5 to 9 September 2022.

We wish to congratulate all the young scientists awarded the 2022 EAAP scholarship and we are looking forward to meeting you in person in Porto!
